

iVUE HORIZON 1080P

MSRP: \$169

1080P HD VIDEO

Extremely sharp and vibrant video quality. HD video has never been easier to capture.

135° WIDE ANGLE LENS

The lens records a wider field of vision. Record more of what your eye can see.

WEATHER RESISTANT

Moisture or sweat is no problem. The frames are built tough and are dust/shock resistant.

VIDEO STABILIZATION

Advanced stabilization reduces shakes & jitters giving your videos a smoother look.

60 FPS / 30 FPS

Record at 60 FPS 720P or 30 FPS 1080P. Optimize your video for faster or slower action.

AUDIO ALERTS

Know exactly when you start and stop recording. Alerts can be muted for preference.

CUSTOMIZE SETTINGS

Easily change settings such as exposure, white balance, contrast, sharpness, video quality, etc.

NOISE REDUCTION

The microphone helps reduce unwanted noise such as wind and other shuffling around.

TIME/DATE STAMP

Display the current time/date right on your videos. Turn off/on as per preference.

TIME-LAPSE MODE

Capture unique and impressive videos with the time-lapse feature. No extra editing required.

ONE-TOUCH RECORD

Touch to start recording and touch again to stop. So easy a monkey could do it.

EXPANDABLE MEMORY

Complimentary 8GB Micro SD card included. Works with SD cards up to a 32GB.

#CAPTUREYOURVIEW

Capture your view in crisp and clear HD 1080P video with the iVUE Horizon 1080P Camera Glasses. Keep your hands free while you record all of your sporting adventures whether it be hunting, fishing, rock climbing, skateboarding, playing frisbee, or motor sports! In 720P mode the glasses record at 60 frame per second, which is perfect for capturing fast action shots with fluid motion.

The 135° wide angle video lens captures a wider field of vision; it can record more of what your eye sees. Built tough and designed to record all your adventures. One-touch recording with audio alerts makes it the easy to operate so you can interact with your environment, not your camera.
